

Dan LeRoy Productions, LLC

Since 1995, I have been a video producer, animator and graphic designer experienced in all aspects of video production from concept to creation. My experience started with creating short comedy videos for a local public access channel, and from there worked at Cox Public Access (formerly Dimension Cable) and from there worked at Cox Media (formerly Dimension Media Services). I worked with large and small businesses all across the state developing media strategies to grow their business through advertising.

In 2015, Dan LeRoy Productions, LLC was formed and has grown to service hundreds of clients and agencies. We create a variety of short and long form videos, conduct social media marketing, create web content, instructional videos, design logos, create print media, develop t-shirt designs, etc.

We have worked with a variety of clients including Liberty Mutual Insurance, Weird Al Yankovic, Gates Auto Group, and many many more. Our goal is to understand the client's business needs and create content that best gets their message across in the most strategic and cost effective way.

We are members of the Better Business Bureau with an A+ Accreditation.
