

Meriden Animal Hospital

Meriden Animal Hospital has been serving the city of Meriden for over 50 years. As an essential business, there was never any question as to whether Meriden Animal Hospital would stay open. Our clients' and community counts on us and we have no intention of letting them down.

At the beginning of 2020 Meriden Animal Hospital finished a complete hospital renovation with new state-of-the-art equipment and design. Though we had ambitious aspirations for a grand re-opening that the entire community could attend, Covid had other plans.

As the state, country, and world began to shutdown we jumped into action, instituting our own stringent Covid protocols, ensuring the safety of our staff and clients. We moved to curbside drop-offs and found new technologies to communicate with our pet parents. With the forethought and early preparation from our leadership team we've been able to continue to provide excellent care to every animal we have the pleasure of treating.

Like everyone else, we look forward to things returning back to some semblance of normal. Until then, we remain vigilant and treat the health and safety of our clients and staff as our number one priority. We are here for our community and local business as a partner and a friend.
