

YAC Industries LLC

I am proud to introduce Yac Industries featuring Promo Items by Lori, Cheshire, CT. I represent over 4,000 manufacturers and look forward to being your creative source for over 800,000 products that can be imprinted! Yac was founded by a former promotional product buyer for a Fortune 500 company, from his experience we have incorporated into our business the best practices to make purchasing promotional items simple! FREE research to find the best values, FREE layout services using your logos (saves you time and money on every order), FREE catalogs, an easy to use website www.logoyac.com which features a promotional product search engine and of course the best service in the industry! I really do make ordering promotional products easy.

I offer you over 20 years of experience with Yac Industries, one of Connecticut's leading promotional products distributorships. Our continued growth is primarily because of referrals received from many satisfied clients (schools, universities, civic organizations, restaurants, small businesses and major corporations). Please let me know if you have any immediate needs for imprinted promotional items.

I look forward to being an important asset to your institution and welcome you to contact me with any projects that can lend my expertise to.
